STATE TECH

AUTOMOTIVE COLLISION TECHNOLOGY

THE EMPLOYERS’ CHOICE

$47,640*
AVERAGE EARNINGS
Degree Offered
- Associate of Applied Science

Certificates Offered
- Refinishing and Non-Structural Repair
- Structural and Mechanical Repair

Potential Employers:
- Refinishing Technician
- Refinishing Product Representative
- Insurance Appraiser

Program Highlights:
- This hands-on curriculum will equip you with the skills needed to restore damaged vehicles to their original structural integrity, function, and appearance.
- Repairs are performed using welders, sanders, pneumatic power tools, and laser and computerized frame alignment machines.

Learning from a book is one thing, but getting out there and getting your hands on the equipment gives you more that you can carry back with you. It's something that'll stick with you through your whole career.

- Brice Bruemmer
