LOKI 67

Linn Technical Junior College
Linn, Missouri
TO THE MEMBERS, GRADUATING CLASS
LINN TECHNICAL JUNIOR COLLEGE:

I wish to take this opportunity to extend my congratulations to the graduating class of the Linn Technical Junior College.

It is always gratifying to see students preparing themselves for the future, and in doing so strengthen themselves, their state and their country.

Sincerely yours,

Warren E. Hearnes
Governor of Missouri

Arrows have been used symbolically since primitive man first learned to make crude drawings on cave walls.

Arrows have symbolized direction and defiance; purpose and pursuit.

The converging arrows that comprise our yearbook theme represent pursuit – the pursuit of excellence.

Linn Technical College has pursued excellence at every level during the past year.

The Administration has been involved in planning new curriculums and programs, as well as strengthening the existing ones.

The faculty has also been involved with curriculum planning and program evaluation. They also attended numerous meetings, conventions and night school classes.

The students have also worked toward the common goal of excellence. Countless hours have been spent over complex drawings, circuits and mechanisms. In addition they have worked with countless formulas and equations; themes and reports.

This collective effort and commitment has contributed to Linn Tech's new status, as the leading technical school in the midwest.

Linn Tech no longer has to prove itself or justify it's existence.

However, the pursuit of excellence is a never ending task. Linn Tech will continue the pursuit. As Winston Churchill said: "It is not the beginning of the end, but it is the end of the beginning".
