**DENTAL ASSISTING
TECHNOLOGY**

THE
EMPLOYERS'
CHOICE

Certificates Offered

- Dental Assisting Technology

Potential Careers:

- General Dentistry
- Dental Specialty Practices
- Public Health Dentistry
- Hospital Dental Clinics

Program Highlights:

- Our eleven-month curriculum prepares students for three distinct dental credentials to become:

- Nationally Certified Dental Assistants.
- Missouri Certified to Assist in the Administration of and Monitor Nitrous Oxide Analgesia.
- Missouri registered Expanded Function Dental Assistants, performing broader duties upon delegation from a Missouri Licensed Dentist.

Since it's an accelerated program, you can get in, get your education, and get out into the job market. We just started our clinicals and I feel a hundred percent prepared to start assisting the doctor.

- Hannah Grimsley
