

## Observation Requirements and Contacts

### RADIOLOGIC TECHNOLOGY PROGRAM

ONE TECHNOLOGY DRIVE • LINN, MO • 65051 • 573.897.5343

MRT applicants must observe (or “job shadow”) at **2 different radiology departments, one of which must be a hospital setting**. A total of **12 hours** of observation is required. The list below provides contact information for several hospitals/clinics that allow observers. Applicants are not required to observe at these locations and may choose their own observation sites. However, applicants are advised to choose observation sites that have a high patient volume. If applicants observe on a day that is not busy and see few exams, or a lack in variety of exams, they are strongly encouraged to do additional observations at another facility. Some sites do not allow observing on weekends or evenings.
